

Violin Finger Chart: Advanced Notes

The notes in **blue**, are advanced notes that you may come across. On the 3rd & 4th finger line, you will see there are two notes; this is because, the note you play will depend on the music. For example, on the G string, if you were told to play a C#, you would play that with your 3rd finger, but if it was a Db, you would play that with your 4th finger.
